Incoming Visiting Researcher at MBZUAI (2026) — Multi-Agent Systems for Scientific Discovery

EDUCATION

IIT Bombay

PhD in Artificial Intelligence and Data Science

Mumbai, In

July 2022 – May 2027

Vishwakarma Institute of Information Technology

BTech in Electronics and Telecommunication

Pune, In

Aug. 2018 – May 2022

RESEARCH INTERESTS

My research focuses on online learning and sequential decision-making, with applications to reliable and resource-efficient LLM reasoning. My current interests also include continual learning and multi-agent systems for scientific discovery.

EXPERIENCE

• Summer Research Intern

May 2025 – July 2025

Adobe Research

Host: Soumyabrata Pal, Ramasuri Narayanam

- Improved LLM reasoning under fixed compute constraints by developing a novel method to inject auxiliary information during sequential test-time scaling.
- Designed and implemented an efficient, on-the-fly example selection strategy using embedding similarity, leading to more relevant in-context examples during inference.
- Focused on designing inference-time techniques that enhance model responses without changing any underlying parameters.

Patent Filed: Gharat, S., Pal, S., Narayanam. R., Guided Sequential Test Time Scaling using additional hints from exemplars

• Student Researcher

Oct 2024 – March 2025

Google DeepMind

Host: Aparna Taneja, Milind Tambe

- Evaluated AI-targeted intervention scheduling in a large-scale maternal health program using data from thousands of beneficiaries.
- Designed comparative analyses against matched control groups to measure effects on engagement, maternal health knowledge, and postnatal care behaviors.
- Developed robust analyses for noisy and variable survey responses, enabling reliable detection of intervention effects.

• Visiting Researcher

Aug 2021 – June 2022

Tata Institute of Fundamental Research

Host: Prof. Shriganesh Prabhu

- Designed optimization methods to estimate the refractive index of optically thin materials using Terahertz Time Domain Spectroscopy.
- Implemented and benchmarked algorithms including Dual Annealing, SHGO, and Newton-Raphson to improve convergence stability.
- Built a user-friendly Python library to support experimental analysis and make the refractive index estimation pipeline accessible for both researchers and educators.

INVITED TALKS & PRESENTATIONS

- **Invited Talks**
 - Which Model to Train? A Budgeted Bandit Approach to Adaptive Fine-Tuning — Cohere for AI Reinforcement Learning Group (2026)
 - *Cost-Aware Best Arm Identification via Dueling Feedback with Applications to Large Language Models* — Cohere for AI Research Connections (2025)
 - *Representative arm identification: A fixed confidence approach to identify cluster representatives* — Cohere for AI Reinforcement Learning Group (2025)
 - *Estimating Redshifts of AGNs using Neural Networks* — IAU-IAA Astroinformatics Seminar (2024)
- **Poster Presentation:**
 - ACM India ARCS 2026
 - Google Research Week 2024
 - IndoML Graduate Forum 2024
 - ACM Pingala Interactions in Computing 2024

ACADEMIC SERVICE & HIGHLIGHTS

- **Reviewer / Program Committee**
 - ICLR 2027
 - IJCAI AI for Social Good (2025, 2026) - Awarded Bronze Tier reviewer distinction in 2026
 - KDD AI for Sciences 2026
 - AAMAS (2025, 2027)
 - IEEE Transactions on Information Theory
- **Research Grants and Support**
 - Awarded *Thinking Lab Research Grant* for the project on "An Online Learning Approach for Adaptive Fine-tuning"
 - Selected for the *Cohere Labs Catalyst Grant Program* for a proposal on online learning
 - Inaugural cohort grantee of the *Adaption Labs Research Grant*, for research on continual learning, online learning, and adaptive AI systems
 - State Bank of India (SBI) funded project (2024–2026) on *Dynamic LLM Optimization and Fine-Tuning via Dueling Bandits*, exploring adaptive model selection under resource constraints
- **Selected Programs**
 - AAMAS Doctoral Consortium 2026

- ACM India ARCS 2026
- Google Research Week (2024, 2025)
- IndoML Graduate Forum 2024
- ACM CODS-COMAD PhD Clinic 2024
- ACM Pingala Interactions in Computing 2024
- **Kaggle Expert**
 - LLM Prompt Recovery Challenge: Silver Medal (Rank 79/2175)
 - Santa 2025 Challenge: Bronze Medal (Rank 228/3357)

TEACHING EXPERIENCE

- **CS 747:** Foundations of Intelligent and Learning Agents (**Best TA Award**)
- **CS 663:** Digital Image Processing
- **EE 325:** Probability and Random Processes
- **DS 203:** Programming for Data Science

MENTORSHIP EXPERIENCE

- Algoverse AI Research Program 2026
- Krittika Astronomy Summer Project, IIT Bombay 2026
- Summer of Sciences, IIT Bombay 2023

TECHNICAL SKILLS

- **Programming:** Python, LaTeX, Apps Script
- **Libraries:** PyTorch, TensorFlow, NumPy, pandas, vLLM, Transformers
- **Tools:** Jupyter Notebook, Git, Docker, Google Cloud Platform, VS Code
